About Me

I am an Information Technology professional with overseas creativity and passionate experience with a high level of academic education based on my bachelor degree in computer science.

Determination to learn new technologies, proactive attitude, written and verbal communication are just some of my key strengths, which will make me a great candidate.

Others key strengths that I possess include, but are not limited to, the following:

- My knowledge on life cycle development software.

- Strong desire to learn.

- Solid understanding of responsive web design mobile first.

- My passion for working with front end web UI / UX frameworks and libraries.

- Object-Oriented Programming Principles.

Since May 2020, I have been learning new technologies on my own and updating my knowledge from home, it has been a lonely, difficult and challenging process. However, my passion for web development has increased as well as my self-confidence, which has led me to make the decision to continue my career and find a rewarding job as a front end web developer.

My favorite quote:

"Everybody wants to go to heaven, but nobody wants to die"

- Unknown
