Professional Summary

I am a software designer and developer with over 10 years of overseas creativity and passionate experience in the design and development of web applications. I have a high level of academic education based on my bachelor degree in computer science in Venezuela.

Determination to learn new technologies, proactive attitude, written and verbal communication are just some of my key strengths, which will make me a very competitive candidate.

Others key strengths that I possess include, but are not limited to, the following:

- My knowledge on life cycle development software.
- I am a self-starter and an excellent team worker.
- My great and exceptional attention to details.
- My passion to work with layouts, master-pages or templates based on cutting-edge technologies, such as HTML5, CSS3, JavaScript, JQuery, NodeJs and BOOTSTRAP UI Framework.
- My knowledge on Back End programming under Visual Studio .NET using ASP.NET, VB.NET, C#.NET languages.
- I have basic knowledge on installing and customizing content management systems such as DNN, Word Press, Sitecore and Microsoft SharePoint Designer.

I am looking for an excitement place to work, as a team worker I am willing to apply and share my passion, knowledge and skills with my colleagues, in order to improve anything necessary to deliver the best look and feel application possible. It would be great to have the opportunity that allow me to have a professional development and continue my career in this wonderful field.
